

High Spirit Community Farm's mission is to establish an exemplary option (alternative) for adults with intellectual and developmental disabilities. The work of High Spirit Community Farm has two goals: to provide a hospitable workplace and home that accords equal dignity to people with disabilities through family style home life, healthy and meaningful agricultural work, and rich, joyful social and cultural life, and to seed social renewal through nurturing well-being in the individual, the community and the environment.

High Spirit Community Farm

Is dedicated to providing the highest quality of care for people with disabilities through family style home life, healthy and meaningful agricultural work, and rich, joyful social and cultural life. High Spirit nurtures well-being in the individual, the community and the environment.

High Spirit Community Farm

Is dedicated to providing the highest quality of care for people with disabilities. High Spirit Community Farm offers the joy of shared purposeful work, vibrant home life and social community, and celebration of the seasons and rhythms of farm-based life. HSCF nurtures well-being in the individual, the community and the environment.

Acting as the local hub for work and community life,

John says he does not see it as our mission to create a Camphill. Our mission is to create a vibrant, land-based lifesharing program. It should also have legs economically. While he personally lives life as an anthroposophist, it is not essential that HSCF be anthroposophical. It is, however, essential that we be creating a meaningful environment, and working for social change.

High Spirit Community Farm

Is dedicated to providing the highest quality of care for people with disabilities. High Spirit Community Farm offers the joy of purposeful work shared with others, vibrant home life and social community, and celebration of the seasons and rhythms of farm-based life. HSCF nurtures well-being in the individual, the community and the environment, while working for social change.
